Intern Web Developer

July 2023 – Present

Yakeen The Learning Institute

Remote – Ghaziabad, Uttar Pradesh, India

- Creating new HTML templates, CSS stylesheets, Javascript code, and other programming languages as needed to support the functionality of the website being created
- Maintaining an understanding of the latest Web applications and programming practices through education, study, and participation in conferences, workshops, and groups.
- Communicating with clients or project managers to discuss website design changes or updates
- Analyzing data to determine how effective certain marketing efforts have been in driving sales or increasing brand awareness
- Editing, writing, or designing Website content, and directing team members who produce content.
- Working with designers to create graphics such as banners and logos for use in online advertising campaigns
- Communicating with teams of programmers, designers, marketers, and other staff members to coordinate the development of new projects

EDUCATION

Radharaman Institute Of Technology and Science RGPV University

Bhopal, MadhyaPradesh, India

BTECH Computer Science and Engineering **CGPA 8.33**

2019 – 2023

PROJECTS

E-Learning Website

Html, Css, Js, ReactJs, MySQL, Git

[Source Code](#)

- * Designed and developed a clean and modern website using HTML, CSS, and JavaScript
- * Optimized website for speed and user experience
- * Utilized responsive design to ensure compatibility across all devices
- * Deployed on GitHub pages via GitHub Actions

Bank Application

JAVA, DSA, OOPS, SPRING, MYSQL, Git

[Source Code](#)

- * The bank management system project is a program that keeps track of a client's bank account. This project demonstrates the operation of a banking account system and covers the essential functions of bank management software.

Tic-Tac-toe and sudoku Game

JAVA, JAVA SWING, JFrame, OOPS, Git

[Source Code](#)

- * its platform independence, meaning that it can run on any system. Any computer architecture, whether it runs Windows, MAC OS, or any other operating system, can execute Java programs, provided that it supports the Java Virtual Machine.

E-Commerce Website

Html, Css, Js, ReactJs, MySQL, Git

[Source Code](#)

- * A website that allows people to buy and sell physical goods, services, and digital products over the internet rather than at a brick-and-mortar location. Through an e-commerce website, a business can process orders, accept payments, manage shipping and logistics, and provide customer service.
